GRAIN MARKET CLOSES HIGHER DAMAGING HAIL AND RAIN STORMS

REPORTED IN NORTHWEST. Provisions Advance With Grain-Liverpool Shows Advance Due to Unfavorable Weather in England-Oats Higher.

CHICAGO, Aug. 2,-A rally in foreign markets and estimates of a considerable smaller spring wheat crop than a year ago stopped the decline in wheat to-day, and ent prices to a point %9%c above esterday's close. Coarse grains were also trong, corn closing %c higher and oats

c higher. Provisions advanced 24265c. Wheat was firm at the opening, although terest in the market showed but little increase. Damaging hall and rain storms ere reported all over the Northwest, the area affected being places as high as 500,-600 acres, while complaints of drought also came from sections of the wheat belt. Came from sections of the wheat belt. Northwest receipts continued to fall off, and the proportion of new wheat arrivals was much smaller than a year ago. Minneapolis and Duluth reported 27 cars, against 285 last week and 75 a year ago. Chicago receipts were 11s cars. 12 of contract grade. Of the local receipts, 44 cars were new wheat. A year ago they were about 16a. Liverpool also showed some advance, due to unfavorable weather in England and parts of the continent. September of the continent september of the continent of the caused prices to waver for a time, every little advance bringing out long wheat and encourging short selling. The large clearances from Atlantic ports, however, a total of nearly 900,000 bushels from all points, caused considerable skepticism as to the entire truth of the reported absence of export demand, and shorts became heavy buyers. Closing cables were higher. A famine was said to be imminent in India on account of the absence of the usual Monscon rains. The market became active and advanced steadily to the close. A feature of the news was the estimate of a crop expert putting the spring wheat yield at 25,000,000 bushels less than previous estimates. The European shortage compared with previous crops, was also put at 160,000,000 bushels. September advanced to 70c and closed firm at 185,000,000. Northwest receipts continued to fall off, orn was strong and closed at top prices.

The weather was favorable, and primary receipts were 50 per cent larger than last year, but clearances were large and the cash demand was good. The seaboard reported 210 loads taken yesterday. Local receipts were light, 226 cars, and the ad-vance in freight rates was expected to re-

receipts were light, 226 cars, and the advance in freight rates was expected to result in a still further reduction. Shorts took the new crop futures freely on complaints of hot weather from Kansas. September ranged from 20 to 30½c and closed %c higher at 20½c; and higher on a small amount of trading. There was a fair cash demand at higher prices and the scaboard reported moderate export sales. There was considerable changing from September to May at 1½62c spread. Receipts were 235 cars. September ranged 19c to 19½61½c, and closed %c higher at 19½c.

Provisions were fairly active and irregular. The market after a steady opening, broke on rumors of further outbreaks of yellow fever. The reports were denied, and later the market steadied with grain, but did not show much strength at any time. Demand for lard was good, but slow for meats. At the close September pork was 2½c higher at 35.27½, and September ribs 5c higher at 35.27½, and September ribs 5c arts; corn. 10 cars. Estimated receipts Thursday: Wheat, 25 cars; corn, 410 cars; oats, 490 cars; bogs, 27,000 head.

LOCAL GRAIN MARKET.

A Declining Week in Wheat-Corn

september lost up to Threedy Fig., and here she same option declined during the same time 3%c and no especial life to the market at this reduction. The crop situation has not changed much since our last review. California and Oregon are said to have suffered some during the week from dry weather, and the reported damage in North Dakota was confined. But otherwise the outlook is good and from Argentine shipments sensor favorable all around. Agrentine shipments sensor favorable all around. Agrentine shipments sensor avorable all around. Agrentine shipments have been 20,000 bushels, against 225,000 bushels have been 20,000 bushels, against 225,000 bushels have been 20,000 bushels and the configuration of the same week last year. Australian shipments last week were 240,000 bushels and the configuration of the same week last year. The Indian shipments last week were 240,000 bushels, against 45,000 bushels and the configuration of the current week last year of 78,000 bushels. In this country the receipts at the five leading Western markets last were a configuration of the current week last year of 78,000 bushels. But was a want of speculative life to trade. But was a want of speculative life to trade, the configuration of the current week last year of 78,000 bushels. The configuration of the current week last year of 78,000 bushels. The configuration of the current week leaves of the configuration of the current week leaves of the current week last year of 78,000 bushels. The configuration of the current week leaves of the current week leaves of the current week l

surprining, therefore, that prices ruled lower and there was an shaence of support to the market. Wednesday brought a little stronger feeling in sympathy with wheat, but at the same time trading was light and the market is still a very narrow one, buyers only taking such lots as needed to fail positive orders for immediate shipments, and clearances hard to make, and what little strength showed was confined to mixed. White showed no signs of improvement. By sample on track here at Kansas City:

No. 2 mixed, 1 car at 25½c, 2 cars at 25½c, 2 cars at 25½c, 1 car at 25½c. %c. No. 4 mixed, 1 car at 26c, 1 car at 27c.

Market Irregular.

The past week shows a freer use of money throughout the country, and the tone of the money market is growing stronger. There is no stringency reported, but at the East rates are hardening and lenders becoming more independent. In the currency movement last week the New York banks only gained \$500,000 from the country, showing that the interior is using its money at home. Now that the market-

some of the specialities. Early in the day Sugar went up 2%. Reports of the extraordinary earnings in the iron and steel industry gave a firm tone to that group of stocks and Tennessee Coal had the additional benefit of a report that valuable property was about to be acquired and that claims of preferred stock-holders were in process of adjustment. The stock in consequence rose 3%. The Trunk lines were favor, ably affected by the going into effect of the higher freight rates on grain to the seahoard. The Tobacco stocks, the local traction shares, General Electric. Cotton Oil, People's Gas and a few others gained from individual causes. The general appearance of strength thus imparted to the market prompted some covering by the shorts who sold yesterday, thus helping on the advance. The higher prices brought out realizing sales and there was a sharp break in Sugar and Brooklyn Transit, the latter dropping 2½ from the bset. Lacksawanna suddenly fell away 3½ points on rumors of a projected strike. The grangers were weak on had crop news. The closing was dull and heavy generally below last night's closing. The apprehension over the money outlook was caused by the advance of discount rates in London to a point above the Bank of England's mining rate. The fall in consols was evidence that the Rank of England was again borrowing from the market to repel the demand for gold made probably by the recent downward course of sterling exchange in New York. There was not enough doing in sterling exchange here today to reflect the influence of this move, but the sterling exchange rate at Berlin, whence London continues to draw gold, rose 2 pfegunigs. The bulk of the call loans in New York were made to-day at 4 per cent and lenders showed themselves indisposed to renew time loans at current rates. Prime commercial paper rates ruled from 4 to 5 per cent. Outside banks continued to draw on their deposits fix New York banks for the purpose of making loans in this market. There has been some out-go of funds from this center to Mont

The primary marked relation of the derivative survived of grid the claim. In Claims September and here the same spation advanced the and the control of the

Drive-outs
The market the past week has been without special feature. Receipts were fairly good, but so was the demand and prices ruled steady throughout. Fat lambs, as well as muttons, selling very well. Stockers and feeders also showed very fair life, encouraged by the prospects of abundance of cheap feed this winter.

With hetter receipts, prices of most cattle have ruled lower since our last review. That is, all common and medium fleshed stuff. Toppy dry lot cattle, however, held their own throughout the week and did as well as any time this year, and with very good numbers in. The demand for this class of cattle was strong and they showed more life. But they made up but a small per cent of the total offerings. The bulk of the receipts were from the grange country, a good per cent from north of the range country, a good per cent from north of the quarantine line, yet they were grassy and all cattle were forced off L6£25c per cwt. more. For the week, the receipts were 12,142 more than the week, the receipts were lattle, there has been a Klondike buyer in the market the past few days, and hasy only taken the best and paid well for them. Stockers and feeders have sold a little uneven since our last review. The first half of the week they were slow and a little lower, but since the recent rains they have ruled stronger and in better demand. The corn crop in this section is now thought to be made and promises to be a bumper one, and there is to be a world of roughness and grass is very fine, all of which have made country buyers more anxious for supplies and strengthened the tone of the market. As for the future, everything points to a continuation of a future, e

SHEEP—Receipts, 2,500. Market strong. Top lambs, \$5.35.

\$6.35. SOUTH ST. JOSEPH, Aug. 2.—CATTLE—Receipts, 900. Market active and steady to 19 higher. Nothing choice on sale. Fair Westerns, \$5.55. HOGS—Receipts, 4,600. Market steady. Top, \$4.35; bulk, \$4.25@4.30. SHEEP—None.

BARSE LIVE STOCK COMMISSION CO

Fred Bishop is back from a trip down in Barber county, Kas. He says he never be-fore saw so much and such good grass and corn as is there now. Farmers are also pretty well supplied with stock and every-thing will be fed in that section until it is fat.

While one or two carloads of good cattle is a daily occurrence, it is seldom that we have a whole train of choice native beeves brought in by one man. H. F. Simms, of Phillipsburg, Kas., had in here yesterday 312 grade native steers of his own feeding that were smooth and fat. They averaged 1,291 pounds and were sold by Duke, Lennon & Harrington at \$5.69 per hundred. They were taken by the Armour Packing Company for its dressed beef trade.

\$19.00 for round trip tickets to Denver, Colorado Springs and Pueblo via Santa Fe Route. On sale August 5, 6 and 7. Good for stopovers between Pueblo and Denver. Limited August 31. The Santa Fe's Colorado train leaves Kansas City 9:55 a. m daily. Free chair cars and new sleepers, Call at Santa Fe Route ticket office, northeast corner Tenth and Main, for particulars.

CAN'T BE BEAT.
